CITY OF BASEHOR

ORGANIZATIONAL CHART

The City of Basehor

Mayor and City Council of the City of Basehor, Kansas

The City Staff is pleased to present the 2019 budget. It is a balanced budget, as required by law. The primary focus of this budget is to maintain the City's existing high service levels while maintaining appropriate fund balances and reserves.

Influencing factors for Development of the 2019 Budget

The Governing Body and City staff conduct a retreat in the spring of 2018. The following assumptions and priorities were identified and incorporated into the 2019 budget:

- Sustain financial stability
- Sustain quality public safety services
- Sustain infrastructure improvements that will preserve and enhance property values
- Provide fair compensation and benefits to City staff
- Hold mill levy at current levels or minimally increase for future growth and development

Budget Considerations

Basehor has sustained its financial health largely based on the strength of the city's budgetary flexibility (reserves) and financial management practices. We have continued to see steady growth in the housing market along with increased valuations. Economic recovery is now evidenced by significant increases in sales tax receipts. City sales taxes have risen over prior years and the trend continues for 2018. New and expanded businesses will continue to contribute to sales tax growth in 2019 and beyond.

The primary purpose of the City's budget and budgeting process is to develop, adopt, and implement a plan for accomplishing goals for the upcoming year within given constraints. The 2019 Budget was designed and adopted to be consistent with the long-term vision of the City and the overriding objectives of maintaining a responsive and financially stable position while providing efficient and high-quality service levels.

Staff would like to thank Mayor David K. Breuer and the City Council members for providing a positive vision and direction in preparation of the 2019 Budget. Special acknowledgment to the department heads, Ben Hart, Kristine Olson and Shauna Hernandez for their involvement and commitment to this process.

Respectfully Submitted,

Katherine M. Renn, City Clerk/Interim City Administrator

The City of Basehor

Budget Development

The purpose of the budget document is to present to the public, Mayor and City Council a comprehensive picture of proposed operations for the budget year in order to meet the needs of Basehor residents. The budget is intended to accomplish three things: (1) to provide city administration with the opportunity to present its recommendations for the levels of services and methods of financing services in the coming year; (2) to provide the most effective control possible by the City Council over city administration; and (3) to provide city administration with the opportunity to point out various needs throughout the community. The Council has the opportunity to judge the adequacy of the recommended activities and to set the level of City services by comparing the needs of one service over the needs of another. The Council must also weigh the desirability of the services proposed against the burden of taxes required to finance any proposed changes. The budget document is the single most important report presented to the City Council during the year. Although it is primarily intended as a policy tool for the City Council, it also serves as an aid to residents by providing a better understanding of the City's operating programs. The budget is built on conservative financial principles that reflect the Council's commitment to maintaining necessary services, improving the quality of the operation of the City and keeping expenditures and taxpayer obligations to a minimum.

The Basehor City Council meets in the early spring to review the past year's performance and to set goals for the upcoming budget year. The outcomes of this planning session are then articulated in the preliminary and draft budgets provided to Council by City staff. The preliminary budgets are reviewed and discussed by City Council over a series of meetings in June and July. Council provides direction and input to finalize the budget.

Budget Format

The use of fund accounting is one of the major differences between governmental and commercial accounting. It requires separate record keeping for each individual fund. Each fund operates as a self-contained entity with its own revenue sources, expenses, assets, liabilities and fund balance. Even though the actual cash is contained in one bank account, a "separate accounting" is kept of all funds.

Budget Oversight

Each month during the fiscal year, the Clerk/Finance Department prepares a year-to-date summary of revenues and expenditures for each department and fund. These reports are disseminated to all City departments and are reviewed by the Finance Director and City Administrator. The City Council also receives a copy of the monthly summary financial reports in order to monitor expenditures and progress.

At the conclusion of a fiscal year, the City contracts with an audit firm to conduct an annual independent external audit of the City's financial statements that comply with Generally Accepted Accounting Principles (GAAP). The audit is intended to provide reasonable assurance that the financial statements are not materially misstated.

** The City maintains healthy cash reserves which is reflected in the yearly beginning cash balances. This projected balance allows for the City to budget for more expenditures than revenues each year. Through prudent annual saving the City allows itself to pay cash for large projects in the upcoming years.

According to state law, the budget must be balanced for each fund. ***The final budget adopted by the City Council must be a balanced budget, where total resources equal total obligations.*** The State Budget Law prohibits a budget which projects spending in excess of available resources. The Budget Law further ***prohibits*** unappropriated balances in funds supported by general tax levies.

The General Fund is the primary operating fund for any city as it is available for any legally authorized purpose except those required to be accounted for in another Fund. The General Fund's primary revenue source is ad valorem property tax. This is a general tax on all real and personal property not exempt from taxation by law. It is sometimes called an "ad valorem" tax, meaning that the tax is based on the value of the property.

The City Clerk/Finance office is responsible for many basic governmental functions. As part of the statutory duties, the Clerk serves as the record keeper of all City Council proceedings and actions, as well as City records (ordinances, resolutions, deeds, contracts, agreements, easements, vacations). The City Clerk is designated as the Freedom of Information Officer and coordinates all requests for records. Department staff also provides the City with all accounting and utility billing functions including preparation of the City's annual operating budget. The **Organizational and Membership** dues line item includes funding for affiliations to organizations such as LKM, MARC and the LCDC. **Accounting and Auditing** expenses were increased to reflect the contract with AGH and the cost of continuing a Generally Accepted Accounting Principles (GAAP) compliant audit for the 2018 fiscal year. The city-wide legal expenses are consolidated and included in the Clerk/Finance budget. **Capital Outlay** is increased for the purchase the Accounts Receivable module of the BSA software to help with the efficiency of non utility invoices.

KSA 12-16,102 authorizes the establishment of an employee benefit fund. KSA 79-2930 allows up to an additional 5% for delinquent taxes over the actual delinquency rate. The cost of employee benefits for all City employees are included in one fund to allow a clear reporting of the total cost to the City for providing those benefits. This Fund has not included a contingency line item in the past. These funds will be used as a stop gap measure if revenues are not collected as anticipated as well as a cushion against future increases.

The City of Basehor contracts with Deffenbaugh Industries to provide solid waste collection and single stream curbside recycling utilizing poly-carts. The transfer to the General Fund allocates the partial salaries for City staff involved in operating the utility. Ten percent of the City Administrator, City Clerk/Finance Director, Accounting Clerk and Street Department line staff's salaries are accounted for in this Fund. Fifty percent of the Utility Billing Clerk's salary and ten percent of the City Superintendent's salary is accounted for in this Fund.

The Sewer Fund accounts for revenues and expenses related to the provision of sewer services to City residents and customers in adjacent areas. It is classified as an Enterprise Fund rendering services on a user charge basis. The system is a self supporting entity and the accounting must make it possible to demonstrate whether the enterprise is operating at a profit or loss. Rates are set based on the cash needs approach with revenues equaling or exceeding budgetary expenditure appropriations which include both capital outlay and debt retirement. Users of the system are charged based on actual water usage during the months of December, January and February.

The **Sewer Line Rehabilitation** line item includes \$100,000 to repair and replace infrastructure. The increase in the General Fund transfer more accurately allocates the percentage of wages required to operate the sewer system. Forty percent of the City Superintendent and one half of the Utility Clerk's wages are allocated to the Sewer Fund. The full time wages included in the budget account for the three full time wastewater operator positions. In addition, the Board elected to repay the general fund \$125,000 of a \$250,000 transfer to the Sewer Fund beginning in 2018. Capital Improvement includes costs to repair and update equipment for the treatment facility.

The Consolidated Highway Fund is used for street maintenance and repair, the pavement management plan, as well as the purchase of road salt and sand. The **Street Repairs & Maintenance** line item will allow for the continuation of the Pavement Management Program. The **Maintenance Materials/Supplies** line item includes items such as salt, sand and street signs. The **Street Repairs and Maintenance** line item is used for any unforeseen street repairs that may be required during the course of the year or for larger street replacement projects not included in the pavement management plan.

This Fund is used to account for resources that are used for acquiring or significantly improving capital facilities (roads, buildings, etc.), except for those facilities that are financed by special assessment funds and enterprise funds. 2019 costs include renovating the new police building purchased in 2018. Money from the General Fund will be transferred to help fund these costs.

Kansas statutes provide that any Governing Body of any city may provide, by adoption of an Ordinance, for a Municipal Equipment Reserve Fund to finance the acquisition of equipment. Moneys may be budgeted and transferred to such fund from any source which may be lawfully utilized for such purposes, including equipment use charges on the various departments and agencies of the City to finance new and replacement equipment. Equipment includes machinery, vehicles and any other equipment or property including, but not limited to, computer hardware and software, which the city is authorized to purchase for municipal purposes. Transfers to this Fund are calculated based on the Fleet Replacement Schedule with each Fund covering its own projected depreciation. By following the transfer schedule the City should be able to avoid significant single year budget increases. Expenditures from this Fund do not require budgeting as it is a Reserve Fund.
